

# Reach Your Audience in the

The *Journal of Environmental Health* is one of just a few journals in the world dedicated to environmental health, publishing 10 issues a year. It has served as an essential resource for environmental health professionals since 1938.

Our readers:

- Are thought leaders in environmental and public health
- Identify the products and services needed for their organizations
- Influence buying decisions
- Hold positions of trust and influence in their communities

Advertising in the *Journal* puts your name next to the latest environmental health science and thought leadership.

- Peer-reviewed scientific articles
- Commentaries from experts and organizations in the field from technology to policy
- Reports on programs, data, technology, tools, and systems
- Columns from national environmental health leaders

In the *Journal*, your product or service is promoted in the context of related topics, making it immediately relevant.

- Air quality
- Body art
- Climate & sustainability
- Data & technology
- Emergency preparedness & response
- Emerging pathogens
- Environmental justice
- Food safety
- Land use
- Leadership & professional development
- Occupational health
- Vector control
- Waste & hazardous materials
- Water quality

Each issue of the *Journal* reaches approximately 20,000 environmental health professionals directly who work in a wide array of fields in positions from entry-level to leadership.

- Academia
- Building & code enforcement
- Climate & sustainability
- Data & technology
- Engineering
- Healthcare
- Laboratory
- Local, state, & federal government
- Private industry
- Public & environmental health
- Territorial & tribal government
- Training & education
- Uniformed services
